Too Many Pigs in the Pool

1. Another way to think about 2 + 2 is 2 x 2. Another way to think of 4 + 4 is 2 x 4. **What is another way to think of 8 + 8?**

2. When two numbers are added together the answer is the sum. The sum of 4 + 4 is 8. When two numbers are multiplied together the answer is the product. The product of 2 x 4 is also 8. **If the sum of 8 + 8 is 16 what is the product of 2 x 8?**
3. **What is the sum of 5 + 5?**

4. **What is the product of 2 x 5?**

5. How many pigs are above? Each pig has two ears. **Write number sentences to show how many ears the pigs have.**
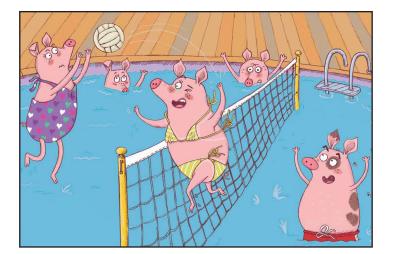

To show the sum, we could say: _____ + _____ + = _____
To show the product, we could say: _____ x _____ = _____

6. How many pigs are above? Each pig has four legs. **Write number sentences to show how many legs the pigs have.**

_____ + _____ + _____ + = _____

_____ x _____ = _____

7. How many pigs are above? Each pig has one nose. **Write number sentences to show how many noses the pigs have altogether.**

_____ + ____ + ____ + ____ + ____ = _____

_____ x ____ = ____

Too Many Pigs in the Pool

What month is it?

Write the name of the month at the top of your calendar.

What day of the week is the first day of this month? Put a number 1 on that day.

Now fill in the numbers for the rest of the days in this month. Be careful!

Does this month have 30 or 31 days?

Is there a month that has fewer than 30 days?

_____

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday

How many days are in a week? _____

How many weeks are in a month? _____

How many months are in a year? _____

What month were you born in? _____
